RESEARCH, INTERNSHIPS AND PROJECTS

6 Preliminary Asteroid Discovery

DISCOVERY

AUGUST 2017 - SEPTEMBER 2017

- Selected for the All India Asteroid Search Campaign (AIASC)
- Underwent training to detect asteroids through advanced data analysis and proprietary softwares
- Made 6 preliminary discoveries, which were reported to International Astronomical Search Collaboration

Space Settlement Model for ARSSDC

TEAM RESEARCH

AUGUST 2016 - OCTOBER 2016

- Created a space settlement model for Asian Regional Space Settlement Design Competition (ARSSDC)
- Qualified for the Indian Semi-finals round

Locality - Empowering Residents

FOUNDER & DEVELOPER

MARCH 2017 - MAY 2017

- Built Android App that empowers residents with the tools to make their neighbourhoods better places to live
- By relying on the principle of crowdsourcing, Locality gathers the most relevant information about local issues and facilitates communication between the people of the locality and the governing bodies to deliver faster, more efficient results to improve the lives of residents
- <https://play.google.com/store/apps/details?id=com.hritikagarwal.locality>

Research For The Future of A.I.

INDEPENDENT RESEARCH

MARCH 2017

- Conducted a short survey with companies developing Artificial Intelligence Technology in India to analyse the possible future that A.I. could have on jobs and productivity
- With these results wrote an article that was published on the online journal Youth Ki Awaaz
- Editors of the organisation acknowledged my work by boosting my post to the top of their news feeds
- <https://www.youthkiawaaz.com/2017/01/artificial-intelligence-in-india-the-future-of-work>

AEFI Tool Project, Hilleman Labs

DEVELOPER

MARCH 2016 - MAY 2016

- Developed an 'Adverse Event Following Immunization' Tool - web-based tool for the Govt. of Bangladesh
- It was designed to create a smooth flow of information across the various levels of hospitals in case of any adverse event following immunization.
- Helped analyse the possible situations that may arise due to any adverse event and even conducted a short survey to understand the situation more clearly.
